

Happy to report that **BATI SHIPPING & amp. TRADING SA from Turkey** and **BLUE OCEAN Asia pacific Limited from Hong Kong** have joined ITCO and I would like to offer a warm welcome to them and all their staff.

### **Antwerp Beam Tank Problem**

We have received confirmation from ICHCA that their board has agreed to work with ITCO to establish a safety briefing pamphlet on the safe handling of tank containers.

Which is good news but the bad news is that it will take many months of drafting and re-drafting before this pamphlet is completed and ready for publication.

In the mean time we will keep pushing this issue wherever possible to get the right result for our members.

### **Munich Exhibition and Panel discussion**

I hope by now you have all seen the advertising that has been sent out announcing our ITCO village at this year Munich show .

This is a great opportunity to invite as many of your customers as possible to attend and see how the tank container industry has grown and matured over the last 2 years.

In addition we are holding our panel discussion on Thursday June 14th at 11am in hall 4C and would like as many of our members as possible to come along showing their support for ITCO and the panel.

After this panel discussion I will invite the audience to join us in the ITCO tank village for a wine tasting sponsored by Multistar Leasing.

### **Next ITCO General Meeting**

The board have now agreed to hold the next general meeting in Nice February 5/6, 2008 and I am pleased to advise that this location has worked out cheaper than Brussels.

It also should be better weather than the snow we had this year during our meeting in Brussels.

I look forward to see as many of you as possible at the Munich Show later this month.

Regards

**Reginald Lee**  
**President ITCO**
