

Willy Freson has advised me that 32 stands have been booked by the ITCO members for the **Munich Transport Logistic Show** to be held May 12 – 15, 2009.

This is great news but it does mean that there are not many space remaining, thr4 if anymember would like to be included I strongly recommend they contact Willy Freson soonest and reserve a place.

ICHCA Project

Bill Brassington presented the second draft document of this project to the ICHCA board meeting in America last week for their review and comments.

Bill advise that there are still a few items that need to be agreed but felt that provided these are worked out within the next 3 months we can submit our third draft at the next ICHCA meeting to be held in Finland Oct/Nov time frame and it should be accepted.

Amended ACC

Graham Wood now has the document and is adding some up to date photo's after which he will arrange for the printing, Graham has advised this should be completed by midJune in time for the Shanghai Logistic show but we will not have them translated into Chinese as this will take a little longer to arrange.

Regards

Reginald Lee
President ITCO

Public Relations

Mike Corkhill has complete his first task for ITCO writing a press release for the Shanghai Show and distributing same to over 20 different agencies. He has also worked with Willy Freson to have details published on our web-site to ensure all our members are keep updated on the progress.

Shanghai Logistic Show June 2008.

Patrick Hicks (COA) has advised things going well , they only have 1 or 2 spaces remaining in the Container Pavilion and he is sure they will be filled within the next week or so.

Graham Wood and I are working on our presentation and we would like all our ITCO members and their customers who are attending the show to join us on Wednesday June 18th in Hall E.2 room M20 starting at 11am.

If any members are interested to take up the spaces please contact Patrick Hicks on his mobile number 44-07770636613

Working at Height

We have a meeting arranged at the HSE's offices in London (at their request) to discuss the issue of working at height again, I will be attending with Graham Wood and John Wilson and will report back details of the meeting to members in my next president report.

I am please to welcome a New Member this month into ITCO they are:

Dalian Inteh Chemical Logistics Co Ltd
